

Orienter

Filler

For Sizes Larger than Su07 Use an Auger Filler

www.torpac.com/cvs

The ideal machine for in-house filling of standard size veterinary capsules (Su7 – 13).
Orienter is used to orient (cap up/body down) and insert empty capsules into the Capsule Tray.
Filler is used to separate, fill and lock capsules.

Overview

- ♦ Fills large capsule sizes from 3-28ml.
- ♦ Output from 1500-2400 capsules / hour (or 3.2 – 5 million capsules / year one-shift basis) based on capsule size.
- ♦ Output without Orienter is 30% less.
- ♦ Easy to set-up for production runs as small as 500 capsules.

Reliable, Simple Operation

- ♦ Ready for production within 2-4 hours of receipt.
- ♦ Designed to operate trouble-free. Machines in operation around the world.
- ♦ Simple for part-time or temporary staff to use.

Easy Formulations

- ♦ Simply fill with your active ingredients in the pre-formed capsule. You can be sure the capsule will disintegrate within 5-10 minutes in the rumen (stomach).
- ♦ No need for excipients to form a bolus and more excipients to disintegrate the bolus in the rumen (stomach).
- ♦ No need for expensive carriers required for pastes.

Support

- ♦ Machines shipped with manual and Video-CD. Optional on-site installation available at cost. Free telephone & Skype video support.

“Saves time and fills accurately... we’re glad we have it.”

Performance Premixes

“Impressive quality and craftsmanship,...easy to use.”
