### Instructions Overview

### Tablet Mold

1. Place plate with holes on a pill tile (flat, beveled glass piece).
2. Make tablet paste and spread into holes using a hard rubber spatula.
3. Allow tablets to harden.
4. Place Mold Plate with hardened tablets over the Ejector Plate with pins and press down to eject tablets. For faster drying, reverse steps 3 & 4 and allow tablets to dry on the pins.

## Cleaning

**Separate all Plates before cleaning.**

**Automatic Dishwasher Restrictions:** Anodized aluminum (both silver & hard anodized) may be cleaned in an automatic dishwasher on rinse cycle only. Automatic dishwasher detergents can discolor anodized aluminum.

**Cleaning Agents:** We recommend household dishwashing liquid. Do not use acidic, caustic or abrasive cleaning materials.

**Cleaning Wipes:** Do not use abrasive cloth or steel wool. Use only soft cloths, sponges, plastic brushes, or nylon pads.

**Isopropyl Alcohol Cleaning or Drying:** May be cleaned with isopropyl alcohol. Wipe with a cloth dipped in isopropyl alcohol, then immediately wipe dry with a clean cloth.

**Hot Air Drying:** May be dried in a hot air oven or using a portable hair dryer

**Autoclave:** Metal parts are autoclave safe.
